

Docket No. QUIG-10021

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In application of: **Richard Rosenbloom**

Application Serial No.: 09/847,121

Group Art Unit: 1617

Filed: May 2, 2001

Examiner: M. Bahar

For: **COMPOSITIONS AND METHODS FOR THE TREATMENT OF  
DIABETIC NEUROPATHY**

**AMENDMENT**

Assistant Commissioner of Patents  
Washington, D.C. 20231  
Sir:

Responsive to the Office Action dated July 18, 2001, please amend the above-identified application as set forth below.

**IN THE CLAIMS**

Please amend claims 1 and 6 to read as follows:

A<sup>1</sup>

1. (Amended) A composition for the treatment of diabetic neuropathy by a method of administration selected from the group consisting of oral administration, parenteral administration and inhalation, the composition comprising a mixture of an amount of a compound that promotes synthesis of nerve growth factor which is effective when administered in the composition to promote synthesis of nerve growth factor, an amount of an aldose reductase inhibitor which is effective when administered in the composition to inhibit aldose reductase and an effective amount of an antioxidant.
